

Fits Pole Top Diameters 3.00" to 17.50"

**SPECIFICATIONS**

The decorative finial cap is constructed of cast aluminum components. Parts are made whole or in components, then fastened together prior to application of finish. All connecting fasteners are stainless steel.

Mounting hardware consists of stainless steel set screws. Each finial cap assembly has a minimum of three set screws.

The finish is TGIC polyester powder coating applied in accordance with Valmont Industries' Specifications.
